DUNBAR ARMORED ANNOUNCES SECURE DATA AND HARD DRIVE DISPOSAL PROGRAM WITH BACK THRU THE FUTURE COMPUTER RECYCLING.

Partnership program provides organizations with secure transportation and certified destruction of sensitive data and computer hard drives

Hunt Valley, MD January 24, 2007 – *Dunbar Armored, Inc.*, one of the nation’s largest independent armored transportation companies and *Back Thru The Future Computer Recycling, Inc.*, a specialist in secure data destruction, have announced an alliance agreement whereby the two companies will provide a comprehensive program for the absolute destruction of sensitive data and computer hard drives.

By coordinating their core services, *Dunbar Armored* and *Back Thru The Future* enable financial institutions and others – now targeted by legislation and regulations aimed at deterring identity theft and misuse of personal information – to absolutely and certifiably destroy sensitive data and computer hard drives prior to disposal.

“Absolute data destruction and the proper disposal of old hard drives is now a legal and regulatory must in many industries” said Melanie J. Haga, CEO of *Back Thru The Future*. “Federal and state laws require the destruction of sensitive information prior to disposal – and financial penalties for compliance failure can be severe. But an even larger liability is the requirement to notify all possibly affected entities of a security breach,” she notes.

Dunbar Armored’s ultra secure transportation service combined with *Back Thru The Future’s* unique data and computer equipment disposal capabilities provides customers with a turnkey data destruction service that protects them against huge liabilities from

improperly handled data,” said Michael West, Vice President of Dunbar’s Global Logistics division.” And with more than 80 *Dunbar Armored* branch offices and 1,000 trucks nationwide, we bring substantial resources to this new venture”, he added.

For more information regarding secure data and computer hard drive destruction solutions, interested parties may contact, Steve Ferguson, Director of Dunbar Global Sales and Marketing at **212-382-1177 (Ext. 128)** or Dan Bayha Vice President of *Back Thru The Future* at **973-823-9752 (Ext. 11)**.

The Dunbar Companies, America’s largest independent, 100% American-owned, full-service security organization is comprised of six operating companies including: **Dunbar Armored** – one of the largest independent armored transportation services in the U.S. serving major retailers, financial institutions and government entities nationwide; **Dunbar Cash Vault Services** - state-of-the-art money rooms providing a complete line of cash management services to major banks and retailers; **Dunbar Global Logistics** - providing secure transportation solutions for the movement of vulnerable cargo worldwide; **Dunbar BankPak** - designer and distributor of the world’s finest security containers; **Dunbar Guard Services** - a supplier of professionally trained, uniformed guards and **Dunbar Alarm Systems** - a designer and installer of electronic alarm and 24-hour monitoring systems.
Dunbar - The Most Trusted Name In Security.® www.dunbararmored.com

Back Thru The Future Computer Recycling, Inc., of Ogdensburg, New Jersey is a recognized leader in secure data destruction services and one of the largest companies of its kind on the East Coast. In addition to absolute data destruction, *Back Thru The Future* provides customers with destruction certificates, affidavits of destruction and complete supporting documentation as required for legal and regulatory compliance. www.backthruthefuture.com
